

Dimensões em milímetros/Dimentions in millimeter

NOTAS:  
1-medidas do gabinete de led 960x960x135mm  
2-Dimensões em milímetros.  
3-peso calculado 494kg  
4-pintura e acabamento  
5-solda conforme norma "ASW". usar eletrodo E7018

|                                                                                                                          |                                        |                                                                                                      |                                            |                                        |                                                                                                                                           |
